

## 44 landfills in SF bay have been closed except **3** in San Jose: Newby Island, Zanker, and Guadalupe Landfill

### Create an Ordinance to Oust San Jose Urban Landfills

\*Newby landfill is pursuing a massive expansion:

- From 150ft to 245ft in height
- 15.8 MCY in capacity
- Estimate closure time from year 2025 to 2041 or later

\* Zanker landfill expansion approved in 2014 by San Jose government

\* Guadalupe landfill has been permitted to year 2064 or later (almost one century)

Above facts give you a clear picture that SJ government is very much in favor of urban landfills.
